

Zefír 2021

The story:

As I am still quite young, few people know me even in my home country, Hungary. But because of my fresh and open nature and exotic touch, I make new friends quickly. At first glance I may appear quite fragile but in fact I am multifaceted. My flowery character can best be described as elderflower, wild rose and orange blossom, but wild mint, citrus and lychee are also part of my being. I am Zefír 2021
